**FEA ANALYSIS**

General-purpose multi-physics design and analysis software for a wide range of applications

**OPTIMIZER**

Automatically selects and manages multiple goal-seeking algorithms

**INTEROPERABILITY**

Built-in circuit modelling and interfaces to leading CAD packages

**SERVICE**

Technical support, training and consultancy services available for software usage and applications

European User Group Meeting

Kevin Ward
Director, Vector Fields Software

- **Leading Edge Capability**
FE for Electromagnetics
... with Multi-Physics

- **Leading Edge Capability**
 - FE for Electromagnetics
 - ... with Multi-Physics

- **Usability**
 - User Interface
 - Efficiency (e.g. parallel versions)
 - Reliability
